

Turn and greet your personal payroll specialist.

We're the people who sit next to you in church, volunteer at Vacation Bible School, and pray for our pastors on Sunday. That's why we offer one-to-one customer service, walking with you every step of the way—not just to solve problems, but to truly understand your mission.

At Brotherhood Works™, we consider it our calling to help you bless your laborers with simplified payroll processes. If you have a question about setting up a minister's housing allowance or are going through a staffing transition, someone on our team who knows your ministry inside and out will be there to guide you.

When you save time and money on payroll, those resources can go back toward fulfilling your mission. That's what motivates our **heart for ministry** and **mind for payroll**.
